PROFESSIONAL SUMMARY

Seventh-semester Bachelor of Science in Information Technology student seeking an AI internship. Brings hands-on experience with Python, NumPy, pandas, FastAPI, PostgreSQL, SQL, and REST APIs, supported by strong foundations in Data Structures and Algorithms and Object-Oriented Programming with C++ and Python. Built Python API applications and an A* pathfinding project, and is eager to contribute to data preparation, AI-enabled application development, and reliable system integration.

TECHNICAL SKILLS

Programming Languages: Python, C++

Python and Data: NumPy, pandas

Python APIs: FastAPI, REST APIs

Databases: PostgreSQL, SQL, database fundamentals

Computer Science: Data Structures and Algorithms, Object-Oriented Programming

Tools: Git, GitHub, Visual Studio Code

WORK EXPERIENCE

Web Development Intern, SafeX Solutions

Skills Development Internship Program | Remote | July 2026 - September 2026

- Worked on web applications and APIs within a professional development workflow.
- Completed the internship program and received a Certificate of Internship in Web Development.

PROJECTS

FastAPI and PostgreSQL CRUD API | Python, FastAPI, PostgreSQL, SQL

Developed a REST API with create, read, update, and delete operations backed by PostgreSQL.

To-Do Application Back End | Python, FastAPI, PostgreSQL

Built the application's backend API and PostgreSQL data layer for task-management operations.

Path Optimizer (A* Search) | C++, Data Structures and Algorithms

Created a pathfinding tool using the A* search algorithm with priority-queue node management.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

University of the Punjab, Lahore | 7th Semester | CGPA: 3.15/4.00 | Expected Graduation: 2027

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Software Engineering Methodology
